The demand for Uzbek cotton and textiles in the global market is growing

Tashkent hosts XI International Uzbek Cotton and Textile Fair, organized at the initiative of our President Islam Karimov.

This forum became a new step in the development of international cooperation in the production, processing, transportation and sale of cotton. Today it is a traditional international event makes a significant contribution not only to the development of cooperation between Uzbekistan and the largest textile companies and leading traders of different states, but also the strengthening of partnerships in many countries, companies and firms engaged in the production, processing, sale and transportation of cotton. This major event of the Year after year there is growing interest at the international level to strengthen existing and establish new business contacts with partners from Uzbekistan. In 2005, the first International Uzbek Cotton Fair was attended by representatives of about 170 companies of the sphere of cotton and textile business in 30 countries, at present, eleven, came to more than 1,000 representatives of companies from more than 40 countries. Over the past years it has significantly changed the geography of the export of Uzbek cotton. Thus, until 2000 the main markets of Uzbek cotton fiber is a country in Europe, and in recent years has increased its exports to China and South-East Asia. - Uzbekistan is one of the largest suppliers of cotton fiber on the world market, while paying great attention to recycling cotton, - said the managing director of the International Agency «Cotton Outlook» R.Batler. - At the expense of effective investment policy factor cotton processing at the present stage it has reached 40 percent. This trend suggests that Uzbekistan is a promising country for investment, as it has in the presence of cotton high-grade, skilled labor, creating incentives and preferences for successful business. The demand for Uzbek cotton due to its high quality, as well as...
The demand for Uzbek cotton and textiles in the global market is growing. Applied in recent years, a transparent pricing system based on the index "A» «Cotlook», thus avoiding the sharp fluctuations in the price of cotton. In addition, the process of exporting cotton involved just three foreign trade companies - "Uzmarkazimpeks", "Uzprommashimpeks" and "Uzinterimpeks", which together with its representative offices and trading houses abroad provide a stable supply all year round.

Cotton has offered high quality indicators, which each year are improved through the creation of new varieties. Today, our country is cultivated a number of maturing cotton varieties with increased yield, fiber length and clean, pest-resistant and adapted to the climatic characteristics of the country. All Uzbek raw high-grade is required in the world market between micronaire, which is one of the main quality characteristics of cotton.

One of the latest achievements of domestic scientists was to create - a world first - gene knockout technology. This will bring the grade line "Porlock" persistent improved properties. Because of this Uzbekistan has amended the price tariff for sale of a new type of fiber, which sold 12 percent more expensive than conventional fiber varieties. It is very important that in 2013 more than twenty farms and specialized seed farms of the Center for Genomics and Bioinformatics of the Academy of Sciences of the Republic of Uzbekistan started harvesting the seeds of new varieties of cotton, "Porlock-1", "Porlock-2", "Porlock-3", " Porlock 4 ". - In Uzbekistan, conducted extensive research aimed at obtaining new varieties of cotton, great attention is paid the full support of scientists and breeders, - says the managing director of the International Cotton Advisory Committee Zh.Sitte. - And in this direction the country achieved significant results. A vivid example is the preparation of Uzbek scientist award for his fundamental studies of the genome of cotton in the competition "Researcher of the Year", held annually by our committee. The Uzexpocenter, where the cotton forum samples of all types of fiber
The demand for Uzbek cotton and textiles in the global market is growing produced in this season ginneries of Uzbekistan. It was noted, that the cotton in Uzbekistan is developing in line with the best global trends - not only by improving agricultural technologies, improved varieties, but also the modernization of ginning industry. The rearming of the industry in recent years, was conducted by a maximum reduction of production areas and the introduction of energy-saving technologies, automated control systems, electronic registration of raw materials and products. An important component of this work was the introduction of a new system of packaging bales of cotton fiber, which will significantly improve the marketability of products, reduce its cost and improve the culture of production.

At the fair for sale on each bale has a quality certificate of the Uzbek cotton fiber CA “Sifat.” Currently underway is the modernization, technical and technological re-equipment of the center. Until 2017 it is planned to be equipped with highly automated systems “Uster HVI 1000”, the performance of which is twice the current used. This will improve the accuracy and objectivity of the evaluation of fiber quality and competitiveness of Uzbek cotton in the world market. In recent years, the export potential of Uzbekistan has considerably increased, the structure of supply on the international markets has been steadily changed from raw materials to finished products with high added value. Today, light industry enterprises of our country export its products to 55 countries in the world, and geography is constantly expanding. Textile and garment and knitwear industries send their products to the CIS countries, Europe, and China, the US, Canada and a number of Arab states. In some countries, particularly in the US, operate dealerships department, to better focus on the global market. With high-quality products of light industry fair participants learned about the textile pavilion Uzexpocenter. About 100 domestic textile, garment and knitwear companies submitted cotton yarn and fabric, dyed and mixed yarn, knitted fabrics, finished knitted and sewing, as well as hosiery, fabrics for special purposes, home textiles, clothing and other goods. Own stand on Fair includes such well-known companies as SP LLC “Osborne textile”, “Daewoo Fergana,” Daewoo Bukhara,” “Indorama Kokand Textile “,” Textile Technology Group “,” Alcimus textiles,” “ Turquoise Group “,” Konteks Tashkent “ “BF Textile”, “Fresh Style”, “Lukbo Textiles” group of companies “Uzteks” and “Plasteks” and many others. - The textile industry of Uzbekistan in recent years has made a major breakthrough in its development, - said director general of the International Textile Manufacturers Federation K.Shindler. - The basis for this was the implementation of measures to attract investment in the textile industry, creating favorable conditions for manufacturers to ensure economic stability and growth of exports of goods with high added value. Because of this, today created a lot of new enterprises producing finished products. According to the
established tradition, the fair was held the presentation of the investment potential of the regions of Uzbekistan and new projects for the development of the textile industry. The representatives of foreign business circles noted the prospects of these projects and expressed interest in their investments.

Participants cotton forum showed great interest in the presentation of the collection of the Uzbek producers organized design center "Shark liboslari" with JSC "O'zbekyengilsanoat" and the Association of Fashion Designers of Uzbekistan "Osie Ramzi ». On the catwalk were presented models of men's, women's and children's clothing, evening gowns the most diverse color palette, patterns and styles.

In their speeches, CEO «Gherzi Textil Organization» Dzh.Gertsi (France), Chairman of the company «Swiss Capital International group AG» P.Shaflyutsel (Switzerland), chairman of the company «TNN» N.Neohaus (Germany) and others stressed that the in the current economic conditions of Uzbekistan is able to continue to develop new markets and strengthen its position in the global market. Foreign participants have expressed great interest in the further development of trade, industrial and investment cooperation with our country in this area. On the first day of the fair, held talks on the purchase of Uzbek cotton and textiles, which were attended by representatives of company-producers and foreign companies in Uzbekistan. On the opening of the XI International Uzbek Cotton and Textile Fair was made Prime Minister of Uzbekistan Shavkat Mirziyoyev.
The demand for Uzbek cotton and textiles in the global market is growing.
